

MOHD ATIF

Data Analyst | Business Intelligence & Analytics Professional

Meerut, India | +91-7417556768 | MohdAtif19999@gmail.com | linkedin.com/in/mohd-atif-517262241 | github.com/Codewith-Atif | codewith-atif.github.io/portfolio

PROFESSIONAL SUMMARY

Data-driven professional with 2+ years of experience in data operations, analytics, and dashboard development using Python, SQL, Power BI, and Tableau. Skilled in building end-to-end reporting pipelines, ensuring data accuracy and governance, and translating raw data into actionable business insights. Brings additional depth in AI/ML and Generative AI output evaluation, adding a modern analytical edge to traditional BI and data-management work. Proven track record streamlining reporting workflows, reducing manual errors, and mentoring teams on data-quality standards.

CORE COMPETENCIES

Data Analytics & Visualization • Power BI • Tableau • SQL • Python • Advanced Excel • Dashboard Development • Data Governance & Quality • Machine Learning • Data Pipeline Management • Cross-functional Collaboration • Agile Problem Solving

PROFESSIONAL EXPERIENCE

Data Supervisor | Five Star Textiles

Aug 2022 – Sep 2024

India

- Oversaw end-to-end operational data workflows, ensuring data accuracy, consistency, and integrity across reporting cycles.
- Streamlined data collection and reporting processes, reducing manual errors and improving turnaround time for management reporting.
- Supervised daily data management activities and mentored team members on data-quality standards and best practices.

Prompt Engineer, Generative AI | Vardhman Books International Pvt Ltd

Oct 2024 – Present

Meerut, India

- Evaluate AI-generated outputs against quality benchmarks, applying structured, data-driven criteria to identify failure patterns and improve consistency.
- Design and refine prompts for large language models (ChatGPT, Gemini, Copilot, DeepSeek, Qwen, Mistral), translating business requirements into measurable output-quality metrics.
- Partner with cross-functional content, editorial, and engineering teams to integrate Generative AI tools into production workflows, improving turnaround time and output quality.
- Document best practices and reusable templates to standardize workflows across teams — mirroring reporting-standardization work from prior data roles.

Onsite Support Intern | Imtac Pvt Ltd

Dec 2023 – Mar 2024

India

- Delivered hands-on software troubleshooting and technical support to end users, resolving system and application issues.
- Assisted senior engineers in improving service-delivery workflows and issue-resolution turnaround.

KEY PROJECTS

Airport Analytics Dashboard — Python, Tableau, Power BI

- Built interactive, drill-down dashboards for operational and passenger-flow analytics to support data-driven decision-making.

Student Management System — Java, MySQL

- Developed a full CRUD-based application to manage student records, improving data retrieval and record-keeping efficiency.

Hospital ERP System — Python, SQL

- Designed ERP modules for patient records and operational data management, streamlining hospital administrative workflows.

EDUCATION

Master of Computer Applications (AI & Machine Learning)

IIMT University, Meerut — in collaboration with IIT Kanpur | 2022 – 2024

Bachelor's Degree in Mathematics

CCS University, Meerut | 2017 – 2020

CERTIFICATIONS

Advanced Excel with Tableau, Big Data Analysis, Python Programming, Machine Learning, Probability & Statistics, Linux OS & IoT — E & ICT Academy, IIT Kanpur | Course on Computer Concepts (CCC) — NIELIT

TECHNICAL SKILLS

Languages: Python, Java, C, SQL, HTML, CSS, JavaScript

Tools & Platforms: TensorFlow, MySQL, VS Code, PyCharm, Google Colab, Tableau, Power BI, Advanced Excel
